“Let Us Spray”

### After we spray

#### Bed Bugs

- 1) Place clean linen on the beds and pillows.
- 2) Wash all your dirty clothes in hot water (as hot as the fabric will allow) and dry in using high heat. The minimum required is running all clothes through the dryer for 1 hour. **DO NOT OVER LOAD THE DRYER.**
- 3) Vacuum baseboards and furniture on a regular basis (daily if possible).
- 4) If you use a vacuum that has a bag it should be changed each time you vacuum.
- 5) **DO NOT** wash the first 6 inches to 1 foot of the floor next to the walls or appliances for 30 days.
- 6) **DO NOT** Steam clean or Shampoo carpets for 30 days.
- 5) **Wipe down any horizontal surfaces with warm water and soap. Eg. counter tops, stove top fridge top, coffee tables, end tables and dining table.**
- 6) Using bleach or color safe bleach in the washing machine. Fill washer half full of water add bleach and then fill with water the rest of the way before adding clothes.
- 7) Dry clean only or delicate clothes use a steamer to kill any bed bugs that may be in the clothes. Please follow garment instruction or contact manufacturer of clothing to ensure that steaming with high heat will not harm garment. You may also run these clothes through a moisture free dryer for a 1 hour period at the highest heat possible.
- 8) Comforters, stuffed animals and pillows should be put in the dryer at the highest temperature for a 2 hour period.
- 9) This is **NOT** an over night solution. You will see bed bugs or get bites for up to 21 days. If after this time you are still being bitten or still see bed bugs then we will need to schedule a 2<sup>nd</sup> treatment.
